

Your Back-Office Partner for Managed Accounting and Technology Solutions

About BlueStreet

BlueStreet is a leading provider of outsourced back-office solutions, including accounting, business advisory, and technology services for government contracting and nonprofit organizations. For over 15 years, we have partnered with small and medium businesses to reduce costs and streamline their back-office operations. Our team of experienced professionals and technology experts use the latest business systems to deliver customized solutions that grow with your business. Our partner-focused approach helps keep your organization focused on its mission.

Our Services

Managed Accounting

Our Managed Accounting Services improve back-office processes while providing financial insights, increasing performance by supporting your core businesses.

Contracts

In combination with our years of expertise and industry leading partners BlueStreet Solutions offers the most skilled and complete contract support services in the GovCon industry.

Consulting & Advisory

Get the most from an evaluation with the least amount of exposure and risk. A strategic team with a winning strategy and experienced resources are essential for success.

Information Technology

Utilizing outsourced IT resources to address the lack of technical expertise, manage costs, and improve business processes while empowering the business to operate at peak performance.

Industries We Serve

Government Contractors

The BlueStreet team has the experience and knowledge to help your company navigate the unique business and technology challenges Government Contractors face.

Nonprofit/NGO

As nonprofits navigate through the sourcing limitations and restrictions on funding, understanding your total fund costs can be a distinct advantage for any Grant based Nonprofit and Non-Government Organization.
